### -UPDATE-

## Lowenbach Phase II – Catoctin Circle, NE *As of March 30, 2010*

### Utility Relocation Starting

This project consists of new curb and gutter on Catoctin Circle and adjacent portions of Blue Ridge Avenue, brick sidewalk on the west side of Catoctin, traffic calming measures, a new storm drainage system, and upgrades to the sanitary sewer and water systems.

Relocation of the overhead utility poles will begin the week of April 19<sup>th</sup>. After the new poles have been set, the utility companies will move their lines to the new poles. This work should last until mid-July. This work should cause minimal disruption of traffic. Look for surveyors setting the new poles locations just prior to April 19<sup>th</sup>. Required tree trimming for the new overhead line locations will also take place.

There will be a public meeting in May to give more details on how this construction will affect the residents of both Lowenbach and also greater Leesburg. Watch for more information.

**Project Status:** Utility relocation starting April 19<sup>th</sup> and project ready for construction bids

To receive email notifications about this project, please send an email to [cmarcus@leesburgva.gov](mailto:cmarcus@leesburgva.gov) with "Lowenbach" in the subject line.

If you have any questions or comments, please contact: Anne Geiger, Project Manager, 703-771-2742, [ageiger@leesburgva.gov](mailto:ageiger@leesburgva.gov) or call the Department of Capital Projects Management at 703-737-2302.

*Every effort will be made to minimize inconveniences as we construct the road improvements.*
